Professional Experience

Software Developer

CETNOPH Enterprises (July - Present)

- Prototype, build, style, and ship high-quality websites, design systems, mobile apps, and cross platform digital experiences for a diverse array of clients using technologies such as JavaScript, React, CSS, and Figma.

Web Developer

Freelancer (January - June 2024)

- Developed, maintained, and shipped production code for client websites using HTML, CSS, and React.
- Performed quality assurance tests on various sites to ensure cross browser compatibility and mobile responsiveness.

Data Analyst

Talk City (PVT) Ltd (October 2021 - November 2023)

- Conducted comprehensive data analysis on sales data to uncover trends, patterns, and insights.
- Developed and implemented data cleaning processes, resulting in a 20% reduction in data inconsistencies
- Built predictive models using Python and applied regression analysis to forecast sales demand, resulting in a 15% improvement in inventory management.
